

Accessing Online learning using Xbox One and PlayStation 4

You will need a keyboard and mouse to access online learning easily on a console. The school has some spare keyboards and mice that they can loan to you so please contact the school office if this would help.

Set up for Xbox One

Your Xbox will probably have Microsoft Edge installed however Wonde does not seem to work on this web browser. You will need to install a different one:

Chromatic Browser

- Go to **Store**
- Select **Apps**
- Search for **Chromatic Browser** and install this
- Once it is installed, click on it and navigate to www.wonde.com
- Login with your child's emoji login like normal
- Click on the Google Classroom icon to access their learning

Set up for PlayStation 4

- Go to the web browser in the content menu (icon with **WWW**)
- Navigate to www.wonde.com
- Login with your child's emoji login like normal
- Click on the Google Classroom icon to access their learning
