

# Safety on the internet

# Links

Do not open unknown links such as 'You won a free trip to hawaii click here to claim your prize.'

The moment you click it, it can hack you and find your bank details .

# Remember to be smart

Stay safe online by not posting or sharing private information or pictures.

Meeting someone you have met online can be dangerous. It best not to do this but if you must, take a parent or carer with you.

Accepting messages and emails or opening files, pictures or links sent by someone you don't know can be risky. They might contain viruses or have nasty messages or images to upset you.
